**T49**

**VITA MFT – The new dimension in aesthetics**

The natural-looking anatomy of VITA MFT anteriors, with approximal contacts in the area of the incisal third being slightly placed towards the palate, enables a trouble-free and appearingly organic alignment of the teeth.

The anatomically correct labial curve leads to a physiologically perfect set-up of the teeth where discretely broadened tooth necks support an age-appropriate papilla design.

## Lower anteriors

Rectangular

**R42**

**R45**

**R47**

Square

**S47**

**S50\***

**L33**

**L34**

**L37**

**L37LN**

**L40**

The mould **L37LN** (Long Neck) was specifically developed for simulating particular periodontal characteristics which, for example, occur in partial prosthetics.

**PU29 – PL29**

**PU31 – PL31**

**PU33 – PL33**

**easy-centric® – the new, effortless way for setting up dentures**

The occlusal surface design of VITA MFT is based on the innovative principle called easy-centric which supports a professional and economical set-up procedure. Moreover, it leads to increased productivity in a quality well adapted to the patient's needs.
