Product Range

about us

Astek Innovations Limited is the UK's premier producer of dental products. We deliver Quality, Performance and Value through our products and our customer service to distributors in more the 60 countries.

Founded by prominent dentist, Dr. Alan Segal, Astek Innovations Limited has won numerous prestigious awards for important innovations in the fields of Prosthetics, Anaesthesia and Cross Infection.

Innovation is the core belief behind everything that we do - including our people, our customer services, our inventory management, our logistics and of course our products.

Meticulous development and extensive testing by our product design engineers and experienced dentists, ensures that all of our products meet the highest levels of clinical performance demanded by modern dentists and they all meet or exceed the latest ISO and CE Standards.
